I want to add a 9600 modem to my TNC (a TNC2 type clone). Where might I find
information on such modems ? (I'd like to build not buy if possible)

Many thanks

David Hutchinson (G8SQH)

David,

The G3RUH 9600 modem kit is freely available in the UK. I've seen it advertised in RADCOM recently.

I've got a unwanted board with instructions if you want to mail me bigwood@cmopma.enet.dec.com. I'm also QTHR and in phone book.

Does this filter work in the IF stage? A friend of mine says it has wires going into the rig, so I suspect it works in IF rather than AF. Also, will it work with the TS 450? One more question, is it as good as the Timewave products, or any of the other good dsp's out there?

To: ham-digital@ucsd.edu

I'm looking for chip(sets?) which implement the Mobitex packet radio standard.

If you have any info, please post it or mail me.

Thanks,

Jan den Ouden denouden@inter.nl.net
